
DifaneTwigDatabaseBundle

Documentation

Release dev

Difane Group

December 18, 2014

Contents

1	Installation	1
2	Configuration	3
2.1	Full Configuration Options	3

Installation

Add bundle requirement to composer.json

```
"require": {  
    ...  
    "difane/difane-twig-database-bundle": "dev-master",  
    ...  
}
```

Run composer to download library and it's dependencies

```
php composer.phar update
```

Register the bundle in app/AppKernel.php:

```
<?php  
$bundles = array(  
    // ...  
    new Difane\Bundle\TwigDatabaseBundle\DifaneTwigDatabaseBundle(),  
);
```

Configuration
